

Value:

The team at Simplexity Outsourcing understands your time is valuable and the one asset which you as a business owner must protect. Simplexity consultants are professionals in understanding the PEO business model and how it can impact the growth and profitability of a small business. Our goal is to fit your particular business model, strategy or need with the “RIGHT” PEO or ASO solution that meets or exceeds your business needs. We Guarantee our PEO recommendation will deliver “Best of Class” solutions at their pre-negotiated “Preferred Rates”.

Service:

The definition of service to the team at Simplexity Outsourcing far surpasses what is defined in the dictionary. Simplexity expects your PEO/ASO partner to provide a high level of service exceeding your expectation indefinitely. We monitor their services on a monthly basis! Each month, you will receive a “30 second survey” from Simplexity requesting you to complete your level of satisfaction on “7 key performance areas” and to add comments if there are any specific services you require. If your PEO service partner is underperforming, Simplexity guarantees to work on your behalf to “right the ship”.

Practices:

With government regulations at an all-time high, your business can’t afford to make mistakes when dealing with the IRS, DOL, ERISA, OSHA and many other government departments. Mistakes or wrong decisions can and will lead to costly fines in most situations. Simplexity guarantees we ONLY work with and recommend PEO partners who employ certified experts and apply “Best Practices” in these fields thus keeping you FREE from worry and allowing you to FOCUS on what drives revenue to your bottom line.
